STATEMENT OF CONFORMITY

Regarding the existing suitability of a product for drinking water hygiene (in accordance with UBA recommendations and KTW-BWGL)

- Manufacturer: **Belgicast Internacional, S.L.**
- Product: **Infinity Gate Valves** (range: DN40-600, PN10/16/25)
- Application: **Valves intended for use in drinking water supply and distribution systems.**

We hereby declare that the above-mentioned products are designed and manufactured using materials suitable for contact with drinking water and comply with the applicable requirements for drinking water hygiene.

The conformity of the product is based on:

- The German Federal Environment Agency (UBA) guidelines

- The KTW-BWGL (Evaluation basis for plastics and other organic materials in contact with drinking water), including the transitional framework currently in force

- Applicable regulatory documents and recommendations for materials in contact with drinking water

In particular, the materials used in the product comply with the following:

- Elastomer components (reference: AA7KWZ from Kraiburg): assessed and manufactured in accordance with the requirements of KTW-BWGL – Annex D (Elastomers)

- Coating system (R8 from AKZO NOBEL): evaluated in line with the requirements for organic coatings for drinking water contact under KTW-BWGL and relevant UBA recommendations.

The suitability of the product is supported by:

- Existing approvals and/or testing of individual materials and components
- Internal validation and qualification processes
- Compliance with relevant European standards and industry practices

This declaration is issued in the context of the transitional period for the implementation of KTW-BWGL requirements, during which formal certification processes are still ongoing.

Validity:

This declaration is valid until formal certification is available or until regulatory requirements change.

Luis Angel García (Quality Manager)
