

## Düker NH No-Hub Pipes and Fittings as per ASTM A888

American standard – German quality!

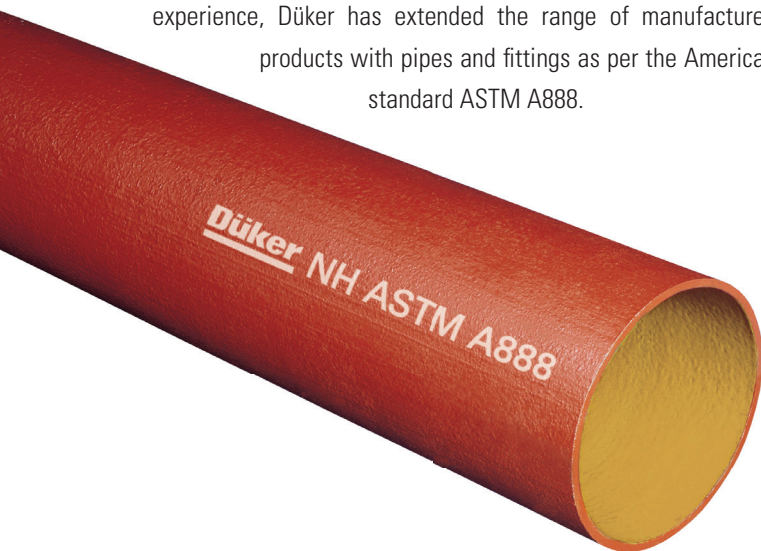

# Available now: Düker NH Cast Iron Pipe System

Hubless cast iron drainage pipe systems as per ASTM A888 are in use not only in the US, but in many other markets outside of Europe.

## Benefit from our experience

Düker has been manufacturing cast iron drainage pipes and fittings for more than 100 years. Based on this comprehensive experience, Düker has extended the range of manufactured products with pipes and fittings as per the American standard ASTM A888.

sanitary tee

## Superior epoxy coating

Although cast iron material, sizes and shapes will be strictly to the American standard, Düker has decided to offer the whole product range with a high-quality epoxy coating following the requirements of the European standard EN 877. Thus users will benefit from a familiar installation combined with a superior chemical resistance.

## Product range

Size	Pipe Length	Inside Diameter	Outside Diameter	Wall Thickness
2"	10 ft	1.96 ±0.09	2.35 ±0.09	0.16 / min. 0.13
3"	10 ft	2.96 ±0.09	3.35 ±0.09	0.16 / min. 0.13
4"	10 ft	3.94 ±0.09	4.38 +0.09 -0.05	0.19 / min. 0.15
6"	10 ft	5.94 ±0.09	6.30 +0.09 -0.05	0.19 / min. 0.15
8"	10 ft	7.94 ±0.13	8.38 ±0.09	0.23 / min. 0.17
